

Research Plan Submission Instructions
(Research Questions & Source Description)
Due Friday, November 13th, 2015 at the end of class
Submitted to www.turnitin.com

- 1) Make sure you have used Times New Roman 12pt font and single spacing and format spaces between sections according to the visual below.
- 2) Type the names of all your group members in the upper left hand corner of the document. If you are individual, just type your name.
- 3) Skip a space and type the heading “***Topic:***” in bold and then type your topic in a statement form like the visual example below.
- 4) Skip a space and type the heading “***Subtopics for Investigation***” bolded and underlined.
- 5) Make sure all your subtopics are auto-numbered with a space between each one.
- 6) Skip a space and type the heading “***Research Questions***” bolded and underlined. Make sure all your questions are auto-numbered with a space between each one.
- 7) Make sure all your questions are auto-numbered with a space between each one.
- 8) Skip a space and type the heading “***Plan to Build Comprehensive Background Knowledge***” bolded and underlined. Make sure all your questions are auto-numbered with a space between each one.
- 9) Type a narrative description of you plan to build background knowledge about your topic that includes where you will go to seek information and what kind of information you will seek. Use paragraphs and lists when applicable and skip a space between each paragraph or indent them.
- 10) Have **one member** of your group submit your questions to www.turnitin.com to the ***Research Plan*** assignment.

Note: All of you will need access to your Research Plan, so make sure you share it if you are in a group.

Topic: I will be investigating theories and implementation models for intervention programs to identify features that provide the most enhancement of student motivation.

Subtopics for Investigation

- 1) Ways to motivate student
- 2) Intervention strategies for students who are struggling academically
- 3) Intervention strategies for students who are not invested in classes.
- 4) Specific data on success/failure of intervention programs for students in #2 and #3 above.

Research Questions

- 1) Type research question #1 here
- 2) Type research question #2 here
- 3) Type research question #3 here
- 4) Etc. (keep going until you have asked all you need to show depth in investigating the topic.

Plan to Build Comprehensive Background Knowledge

This is where you will type your eloquent narrative description of your plan to build background research. You go on and on until you are finished. Just make sure you are clear and concise. Don't ramble or be repetitive. Be direct and specific. Make sure to check the Source Description Rubric for additional information on what to cover here.
